Summary

PhD candidate in Computing at the Hong Kong Polytechnic University. Computational research on the relationship between exercise and sleep, with prior work in applied data science, education, and elite athletics.

Education

PhD, Computing · The Hong Kong Polytechnic University Sep 2026 — Sep 2029

M.S., Applied Data Science · University of Michigan May 2023 — Aug 2025

M.Ed., Urban Education & Leadership · Loyola Marymount University Jun 2020 — Aug 2022

B.A., Communication · University of California, Los Angeles Sep 2016 — Jun 2020

Experience

Full-Stack Developer · DreamTune Limited Jan 2026 — Aug 2026

Built Clozzz, a personalized sleep-audio app (Flutter, FastAPI, PostgreSQL, GCP), including recommendations, encrypted streaming, and offline sync. Also led UI, web, and scientific video (100K+ views).

Freelance LLM Engineer · Little Scholars Creative Workshop Oct 2025 — Dec 2025

Shipped a production WhatsApp RAG assistant (AWS Bedrock, Llama 3 70B) with safety filters and deterministic routing for scheduling and severe-weather queries.

Athlete · Hong Kong Athletics Team Apr 2023 — Jun 2025

Represented Hong Kong in the 800m and 1500m. Three Hong Kong records (800m twice; 4×800m relay) and two-time Hong Kong 800m champion, concurrent with graduate study.

Teacher | TFA Corps Member · Alliance MIT (Teach For America) Jun 2020 — Jun 2022

Full-time computer science, English, and history teacher. Designed a 10-week JavaScript curriculum; 97% pass rate and 193.5% average student reading growth.

Research Assistant · UCLA Emergence of Communication Lab Sep 2019 — Jul 2020

Prepared and labeled infant vocal recordings for TalkBank, using Praat and EAF to segment and annotate speech audio.
